 (2) The banks disclose the exposures in the "Financial assess held for trading" portfolio after positions faving the cash short positions having the same maturities.

 (3) The banks disclose the exposures in the "Financial assess held for trading" portfolio after positions faving the same maturities.

 (3) The banks disclose the exposures in the "Financial assess held for trading portfolio (pro-off balance sheet). Irrespective of the denomination and or accounting classification of the positions to the common substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item dises not include exposures to counterparts (other than sovereign) with full or partial government guarantees become a common substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item dises not include exposures to counterparts (other than sovereign) with full or partial government guarantees.

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI): in the column provisions must be included eventual write-off (PSI).

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

⁽¹⁾ It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination respresent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

⁽²⁾ The country identifies the reference entity single name of the CDS and other contracts.

⁽³⁾ Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
